Caravan attachment: high/low

Parts:

If you lose a Twinny Load part – no problem! You can order the part from your nearest Twinny Load sales point.

Child bike adapter

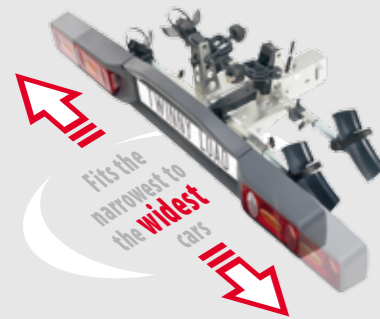

Universal wall mount

Tow bar cover

Modern lighting unit, suitable for all cars

The modern lighting unit enables you to drive safely – it fully complies with the law. The lighting unit is extendible in 11 steps and the fog and reversing lamps provide added safety.

Your number plate is easy to fix to the lighting unit and there is a smart storage place for the loose cable end. The **extendible lighting unit** makes the **Twinny Load** one of the few bicycle carriers that is **suitable for all passenger cars**.

Twinny Load Swing FFK
The solution for electric bicycles

- Smart tilting mechanism with large tilting angle of 60° for easy access to the boot

Sturdy and reliable

- Stable fixing for both crank and frame model
- Extendible lighting unit that meets current legislation
- 7-year guarantee

There is also a Twinny Load for heavy bicycles e.g. E-bikes

7-year guarantee

Twinny Load has been producing bicycle carriers since 1984. Because the bicycle carrier is such a high quality product manufactured in the Netherlands Twinny Load has gained an excellent reputation. The carriers last for years.

If you are looking for an easy to use system that anyone can fit on his or her car then we have the solution. The Twinny Load (standard model suitable for two bicycles) is fitted without tools and weighs approximately 11 kg. Additional bicycles can also be carried. You can use the special Twinny Load Traditional 4-Bikes model that can carry four bicycles. We have a product suitable for everyone.

Choice of Crank fixing or Frame fixing:

Both systems are 100% safe and reliable and will not damage your bicycles. The choice is yours! Request one of our specialist sales points to explain the differences between the two systems.

Crank fixing

- The patented crank fixing is stable and reliable.
- Compact (fits in the boot).
- Super-fast attachment to the crank.
- Almost all bicycles (99.9%) fit on the crank system.
- Strain-free fixing of the bicycle.
- No bicycle damage.

Frame fixing

- The patented frame fixing is stable and reliable.
- Compact (fits in the boot).
- The frame fixing is easy to fit on the bike frame.
- Suitable for almost all bicycle types.
- Strain-free fixing of the bicycle.
- No bicycle damage.
